

## Tower positions at the OSF

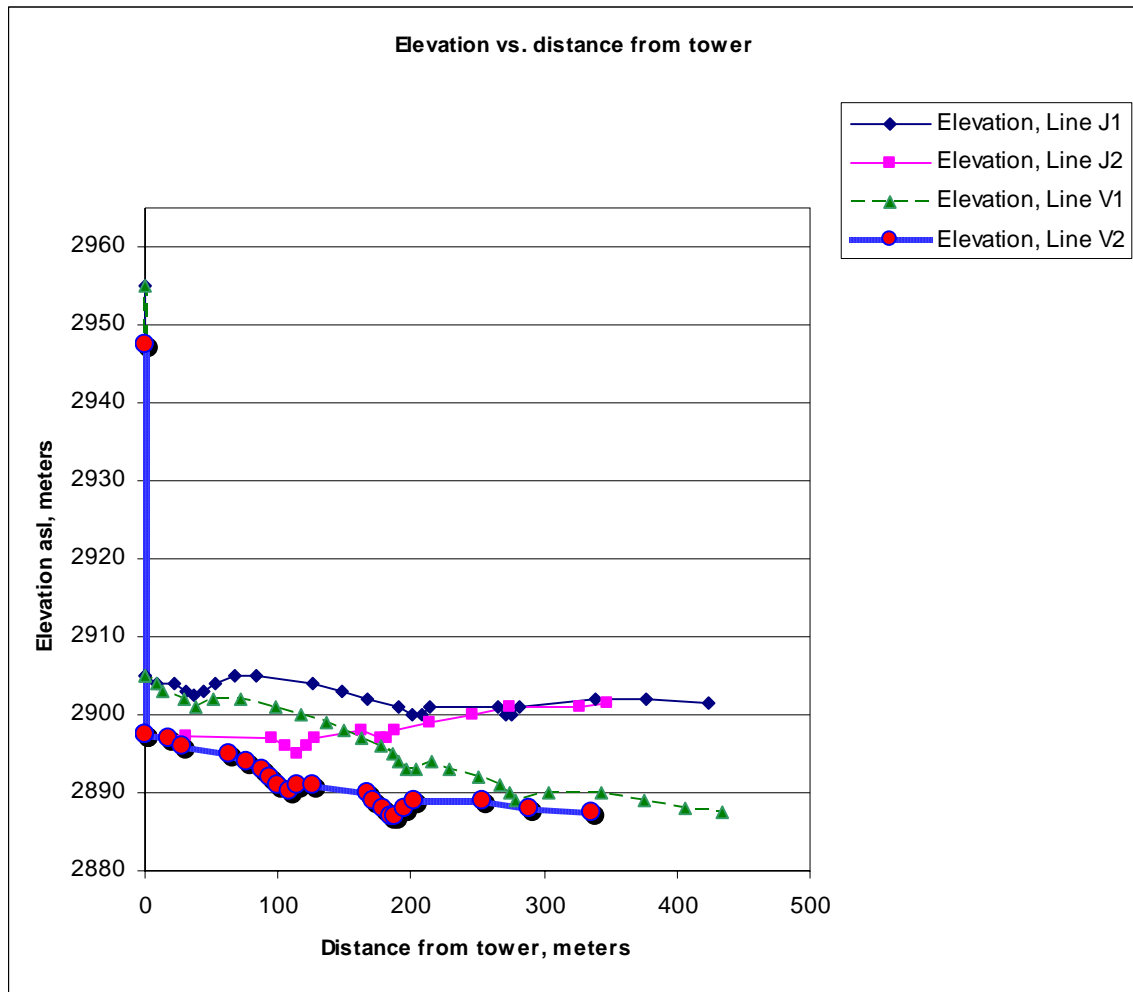

(Darrel Emerson, 2006-03-16)

### Layout of towers and antenna pads

The lines J2 and V2 show the lines of sight from a tower located near the Temporary Power Plant, to the Japanese and to the Vertex antenna pads. The lines J1 and V1 show the corresponding lines of sight from a tower located near the Alma Camp dormitories.

Path length	J1 =	424 meters
	V1 =	434 meters
	J2 =	347 meters
	V2 =	335 meters

**Terrain profiles from two possible tower locations.**

The lines J2 and V2 show the lines of sight from a tower located near the Temporary Power Plant, to the Japanese and to the Vertex antenna pads. The lines J1 and V1 show the corresponding lines of sight from a tower located near the Alma Camp dormitories. See map for details.
